A great software for learning and making 3D game easy.

Thank you and waiting for the jumping.. Chill game but have a few bugs. A seriously underated game with tight controls and great use of physics. Also I really like games with grapple mechanics (Umihara Kawase) so I might be a bit biased.. I don't mind the fact that this game tries to be a more colorful Limbo-Clone. Actually I like this style and was up for more of this kind. Toby looks and sounds really nice. It's not the technical side that keeps me from writing a good review. Toby is simply lacking fresh ideas. Everything in the game feels like we've seen it a billion times before. The game play feels half hearted and unrefreshing but most of all, Toby fails to deliver joy. I simply didn't have fun playing this game that is even shorter than Limbo. Three hours - that's not much, that's disappointing. But to be honest, I was glad when those 3 hours were over and the final "boss" defeated. I died many many times, and many times it felt perfectly random. Trial and error dominates Toby from the beginning to the very end. Especially at the end as the mentioned boss fight is pretty much a question of good luck. Not "hard" in the meaning of challenging, but "random". See, I really really love platformers, just playing this one felt like a chore. It's like the makers had a bad day and decided to develop a game to annoy us. Mission accomplished.. How to enjoy this game :

Launch the game. Start the game. Close your eyes. Click. Click again. Don't forget to click. And please click.

When your hear a different music, congratulations, you just have finished a level !

Now, keep your eyes closed, and click, click, click to change the music.. I didn't think splitscreen stealth was possible, But in BADBLOOD it just plain works. You can screen cheat, sometimes you are encouraged to, but be warned: That might be exactly what your opponent wants you to do. It's a very nuanced game that seems simple on the surface but hides a ton of strategy up it's sleeves.

Polished versus gameplay with an incredible art style and good music. If you like local versus multiplayer and want a spin on the classic 1v1 "deathmatch" get BADBLOOD.. This DLC is really coll

this is a challenging but very good builder.
. Boring and incredibly repetitive gameplay.

Toglietemi Berlusconi.. I don't usually like to write reviews (too self-aggrandizing, bourgeois, etc) but I just had to for this Marco Amadei guy. Gotta help a brother out!

For one guy, he sure can develop hell of a game! I like the inventory system, stealing kraut vehicles, murdering countless nazis, etc. And the realism with the weapons is nice, if a bullet hits your gun or your helmet it will make a "clank" noise. That's why I like Easy Red too and that's how I heard of this game. The game has a lot of survival elements as well such as needing food medicine, and even morphine shots to survive. I bought it on sale but it's worth full price, easily, for any WWII enthusiast/Nazi Murder Simulator fan and I can say the same for Easy Red as well.. Old style Transport management game. Decent enough. But the music.... it's the best I've heard on any game.. ever.. De jaro ustat cu ti
